

Data Privacy Compliance Assessment — Project Charter

Purpose

Portfolio simulation assessing the privacy compliance posture of NexaTech Solutions LLC, a fictional Dubai-based SaaS company.

Objectives

Identify personal-data processing activities.

Assess privacy governance and controls.

Identify compliance and privacy-risk gaps.

Develop prioritized remediation actions and management reporting.

Scope

Customer, employee, website, support, marketing, vendor and SaaS-processing activities.

Methodology

Document review, walkthrough simulation, data mapping, control assessment, risk assessment, gap analysis and remediation planning.

Disclaimer

Fictional GRC portfolio assessment; not legal advice, certification or an independent audit.
